

# Global War on Cancer — Launched by Best Cure Foundation and TeamBest Companies

In 1965, Krishnan Suthanthiran's father was diagnosed with colon cancer while Krishnan was an undergraduate engineering student in India. For more than three years, he watched painfully as the cancer spread throughout his father's body, reducing a strong and robust man to a mere shadow of his former self. His father finally passed away in 1968, after a long and painful struggle. Witnessing the suffering he endured from cancer was the turning point that led Mr. Suthanthiran to dedicate his career to the prevention and possible cure for all types of cancer.

After graduating with a Bachelor's (India) and Master's (Canada) Degree in Mechanical Engineering, he was fortunate to be recruited in 1972 by a world-renowned oncologist in Washington, D.C., to develop devices and instrumentation for research and treatment of cancer patients.

Since then, Mr. Suthanthiran has spent more than 40 years in cancer research, treatment, and cure. He has established and acquired a number of medical companies globally, in order to collect many of the technologies needed to establish a Proactive Healthcare Delivery System, focused on transparency of clinical benefits, outcome, and cost using a Total Health Approach – Prevention, Early Detection, and Effective Treatment for Total Cure. TeamBest's products have been in use in nearly 100 countries for over 60 years for cancer treatment, and TeamBest companies continue to work with various regions throughout the world to set up comprehensive cancer management solutions. Mr. Suthanthiran states that "This has been a journey of more than half a century, and with these efforts, I am proud to say that we are ready to launch a '**Global War on Cancer**'."

While there have been many significant improvements and advancements in medical technologies, many patients around the world do not receive timely interventions or the right care. Mr. Suthanthiran firmly believes more should be done. In 2007, he formed the Best Cure Foundation to work with TeamBest companies, and other leading-edge companies and experts, to establish a Hub-and-Spoke model of healthcare delivery systems to overcome these shortcomings. Best Cure Foundation's goal is to launch a Global War on Cancer that includes express and mobile clinics linked to general and super-specialty medical centers worldwide.

Mr. Suthanthiran has interacted with those in the private sector and government agencies, in more than 20 countries over the last 18 months, in Asia, South America, the Middle East, and North America. In that time, he has stated, "It is clear that there is a groundswell of support for a better, affordable, and accessible healthcare delivery system globally."

The Best Cure Foundation invites everyone to support its efforts in launching this Global War on Cancer. For more information, please visit [www.bestcure.md](http://www.bestcure.md) and [www.teambest.com](http://www.teambest.com), or contact [info@bestcure.md](mailto:info@bestcure.md).
